

When patients are first seen at one of Optic One's clinics, they frequently comment about the thoroughness of our eye exams. That is because our doctors don't cut corners when it comes to evaluation of your ocular health. Your vision is important to us and we take the time to address your concerns and respond to your questions.

We offer [comprehensive eye exams](#) , [pediatric exams](#) , [low vision evaluations](#) , and [laser refractive surgery](#) evaluations, all standard and specialty [contact lens fittings](#) , as well as a wide range of medical services, including the treatment and monitoring of eye disease, such as pink eye, allergies, [dry eye](#) , macular degeneration, and glaucoma.

In addition, our doctors are experienced and highly –trained to coordinate care with your GP or other health care professional to monitor systemic conditions such as diabetes and hypertension, and to evaluate ophthalmic side effects of any [at risk medications](#) you may be taking, which can damage valuable eye sight.
